Thank you, Kevin. This is great news and I appreciate the update! Please feel free to loop Cathy in on the status during the 8:30 call tomorrow. I haven't had a chance to catch up with her about this.

Hi Karrie,

I just wanted to give an update on Roulette Response to Comments to Seneca Nation. Ryan and I met with A.J. yesterday and today to go over his comments/edits. He didn't pushback too much but our program had to take a stand on some issues like where the EPA's authority for injection facilities and PADEP's begins. We made it through all of our responses. Ryan and I are going to change some language and add some things in the next couple of days. We hope to get another draft to A.J. by next Tuesday (7/6) and possibly meet with him on Wednesday (7/7). Unfortunately he's out of the office on Thursday and Friday so we probably won't get it into concurrence until the week of July 12th. For UIC, getting this response out is our number one priority right now but we've made great strides in the last couple of days so hopefully we'll continue that momentum.

Please let me know if you have any questions about anything.

Thanks!

I know I briefly discussed a couple of UIC permits that you may want to bring up to Cathy for your one-on-one earlier.

As for Sandstone Development, Ryan put that draft permit into concurrence yesterday. As far as I know, Phil Yeany hasn't passed it on to Kelly yet so it probably won't get to Cathy for her concurrence until next week so she should be on the lookout for that one.

Have a great evening!

I have a one on one with Cathy this Thursday at noon. If there's anything you'd like for me to raise, please send me a couple sentences about the topic. No pressure to come up with anything! Just wanted to check with you all.
